

Partner search from Nordvestsjællandsskole, Denmark

(Preliminary) Title of the project	Exchange of students for vocational training or/and school practise.
Outline of the project idea	<p>Nordvestsjællandsskole is a school for young people at the age 16-25 .</p> <p>The school is a place for those who are not yet ready to begin a vocational education. Some of them might have started at a vocational school etc. and dropped out and others might have socio-emotional difficulties and therefore need another school option for a while.</p> <p>We have a variety of workshop lines at my school, where the students can explore their skills.</p> <p>Workshop lines include: Hair- and body styling, carpenter, IT/ media, graphic design, smith, sales and marketing, nature, socialwork and cooking.</p> <p>My goal with this project is to give the young people a huge experience and boost their self confidence by sending them abroad on interships / school practise, to communicate in another language and let them take care of them selves.</p> <p>I am also very interested in having students to come to Denmark aswell.</p> <p>We have a very good contact with a lot of companies to take trainees and we have facilities for students to stay aswell.</p>
Programme and call	Leonardo mobility project.
Deadline for call	1 February 2013.
Lead organisation	<p>Nordvestsjællandsskole www.nvpro.dk We would like to be lead partner.</p>
Partners already involved	
Describe the kind of partners you are looking for and their expected role in the project	<p>We are looking for a school/college which wants to work on developing the former student group that just need that extra push to get started with an education. I would expect that our partner could help finding local interships and host if a school practise is the case. We will do the same for you</p> <p>The hosts for the interships could include:</p> <ul style="list-style-type: none"> - Artisinal or craftsman businesses - Hair salons - Restaurants - Media - Child Care and Pre School

	<p>We are primarily seeking schools to collaborate with in English speaking countries as we see good opportunities in combining our English teaching with our student's preparation for the internship.</p> <p>Thus we would like any potential partners - who are not from English speaking countries - to state to what effect our students will be able to practice their English skills during their stay abroad.</p>
Foreseen project duration	<p>We are expecting to apply for exchanging of 16 students a year. Two times a year with 8 students. We are hoping for the partner to do the same.</p>
Contact information	<p>Nordvestsjaellands Produktionskole Head of department Dorte Just Hahn dhk@nvpro.dk Tel. 0045 51672419</p>
Deadline for expression of interest	<p>We are interested in hearing from you as soon as possible, as a matter of fact we are planning to make a preparatory previsit before Christmas, so we can arrange the details before deadline which is 1. February.</p>
