

Description of the school: We are a primary school in Cyprus. We are located in Pelendri, a village in Limassol (<http://dim-pelendri-lem.schools.ac.cy/>).

We have students from 6 to 12 years old. We would like to cooperate with either primary or secondary school.

We would like to participate in a Comenius project with a subject: education for employability: development of basic skills( self estimate, self awareness, self evaluate, teamwork, language, initiative...etc), or something close to that.
